KAMIN

What exists but has never been found

K A M I N

A live map of local industrial capability.

“Is there a local supplier?”

A question so simple you would expect one of these to answer it:

ChatGPT

Is there a local supplier for a 2-inch ball valve?

I can’t say for certain. You would need to check local sources such as chambers of commerce or supplier directories...

Answers with confidence. Has no Saudi data.

Product label

Saudi Made

A mark on a product, not a supplier directory.

suppliers_approved.xlsx

	A	B
1	**Supplier**	**Category**
2	Gulf Supplies Co.	Valves
3	Al Ruwad Trading Est.	Spare parts
4	...	...

Only holds who we have bought from before.

And the truth? Nobody can answer it.

The Fund's companies buy from foreign suppliers, for three reasons.

Reason one

For a good reason

Genuinely nobody makes it here.

Reason two

Because they do not fit

Its quality, its lead time, or a different standard.

Reason three

For a sad reason

Someone makes it two hours away, and nobody knows they exist.

Why?

Why we do not know them, and why they do not fit.

We only know who raises their hand

To know them, they have to reach you.

And picture a factory in Al Kharj, twenty years old, that you have never heard of, and it is exactly what you were looking for.

Even though it:

- has won past government tenders
- has its products registered with the Ministry of Industry
- has published conformity certificates
- and its manufacturing origin is on record

It just is not on your supplier list.

The same item, three different names

Portfolio company A · SAP MM

Description	Lead time	Standard
Ball valve 2 in	30 days	ISO 9001

Portfolio company B · Oracle iProc

Description	Lead time	Standard
BALL VLV 2IN SS	45 days	API 6D

Portfolio company C · Excel

Description	Lead time	Standard
Valve, ball, stainless, 2 inch	6 wks	ISO 9001

The data exists, just scattered

9 sources	per factory
Monafasat	✓
Tarmeez · Ministry of Industry	✓
Saudi Made	✓
Local Content Authority	✓
GASTAT	✓
HRSD	✓
Ministry of Commerce	✓
Saudi Contractors Authority	✓
Company site and registry	✓

So what is the fix?

Simple. We hire a team.

The Coordinator

The Detective

The Auditor

The Advisor

We do not hire them. We run them.

- AI agents
- Two minutes per factory, not a day
- 24 hours, no stopping
- They never forget a thing

KAMIN

What exists but has never been found

K A M I N

A platform of AI agents that runs itself, around the clock.

It builds the Fund a map of local industrial capability, sets it against the portfolio's pooled demand, and carries the journey through to the supplier.

Autonomous

Multi-agent

It never stops

The output

- Verified suppliers
- Gap register
- Coverage rate

So why has nobody done it yet?

Factories in the Kingdom, 2025	**12,946 factories**
And each one needs	**a full day**

which is **35 years**

And the day you finish, what you know is out of date!

So why now?

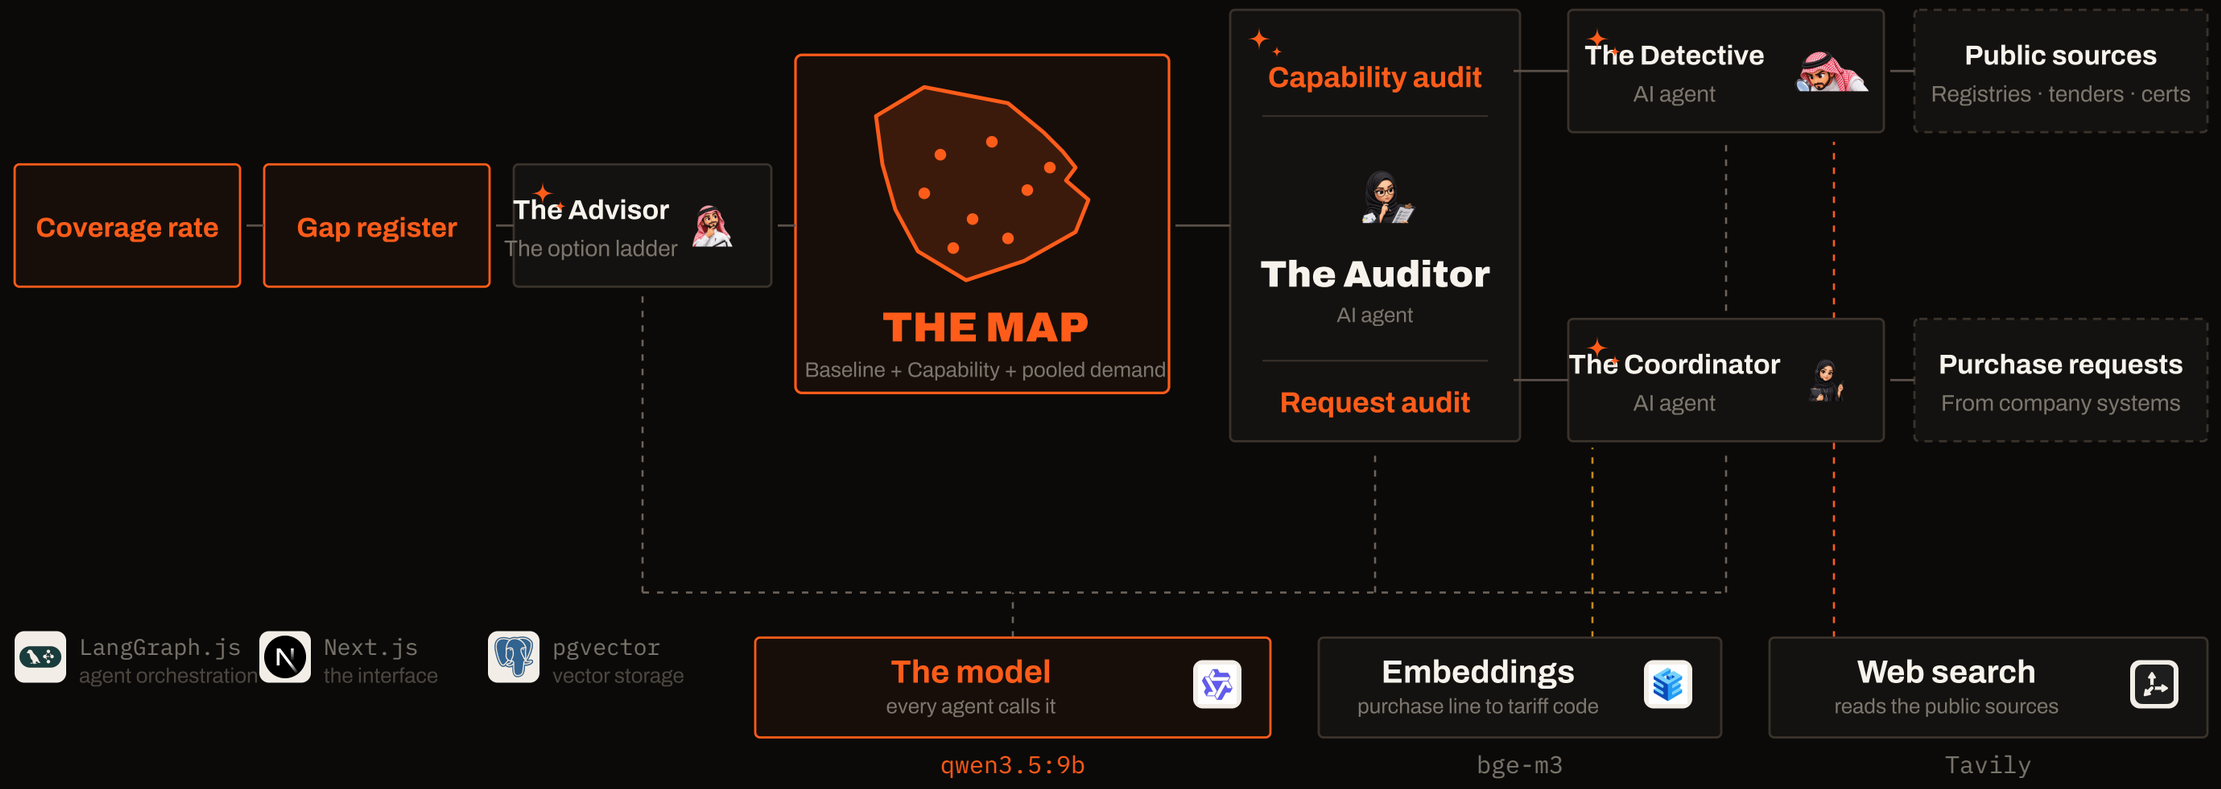
- Searches
- Reads
- Extracts
- Reaches out
- Verifies
- Classifies
- Documents
- Decides

Buy? Split? Invest? Partner? Localise? Import?

And 35 years becomes under ten hours.

KAMIN's map of local industrial capability

AI agent



What happens before it reaches THE MAP?

Coverage rate | Gap register | The Advisor | THE MAP | The Auditor | The Detective | Public sources

Public sources

→ A name and a CR number

→

The Detective

Searches | Reads | Extracts | Reaches out

→ A supplier with its evidence

→

The Auditor

Verifies | Classifies | Documents

→ A documented capability, onto THE MAP

Outreach by The Detective

And every message carries the registration link for MUSAHAMA.

And when THE MAP says nobody can?

Coverage rate | Gap register | The Advisor | THE MAP | The Auditor | The Detective | Public sources

THE MAP →

The Advisor

Does not stop at “nobody can”. Walks six rungs in order, and only drops a rung once the one above it fails

→

Gap register

What stayed unsolved, booked at its annual value

→

Coverage rate

What we could serve locally, after every rung

1 **Buy it** — Purchase order

2 **Split it** — Split award

3 **Invest** — Capacity against offtake

4 **Partner** — Partnership and transfer

5 **Localise** — Direct investment

6 **Import** — Import

Suppliers | **Capabilities** | **Certificates** | **Registries** | **Products**

Sourced by KAMIN — KAMIN found and identified them from public evidence. They still need to register on MUSAHAMA.

Verified by KAMIN — KAMIN reached them, they registered on MUSAHAMA, and we audited and verified them.

KAMIN today.

What it has built

15,025
suppliers

51,992
capabilities

1,146
agent runs

Tarmeez 14,873 · Madinah chamber 114 · Made in Saudi 28 · no register 10

What it cost

Zero riyals A local model, and search on the free tier

Priced elsewhere, the same 2.93 million tokens and the same 507 searches:

Ollama · qwen3.5:9b	Gemini Flash	GPT-4o	Claude Opus	Tavily · search	Voice · per call
$0	$2	$12	$81	$4	$0.90

	The old way	KAMIN
Time	35 years	**Under 10 hours**
Cost	Millions of riyals	**Under $4,000**
Freshness	A report born stale	**Updates itself**

The same work. Just in hours, not years.

MUSAHAMA knows who registered.
KAMIN knows who never raised a hand.

We are not a replacement for the platform. We are the layer underneath it.

Three people. Thousands of agents.

The team building KAMIN.
