

KAMIN

What exists but has never been found

K A M I N

A live map of local industrial capability.

“Is there a local supplier?”

A question so simple you would expect one of these to answer it:

ChatGPT

Is there a local supplier for a 2-inch ball valve?

I can't say for certain. You would need to check local sources such as chambers of commerce or supplier directories...

Answers with confidence. Has no Saudi data.

Product label

Saudi Made

A mark on a product, not a supplier directory.

suppliers_approved.xlsx		
	A	B
1	Supplier	Category
2	Gulf Supplies Co.	Valves
3	Al Ruwad Trading Est.	Spare parts
4	...	...

Only holds who we have bought from before.

And the truth? Nobody can answer it.

The Fund's companies buy from foreign suppliers, **for three reasons.**

Reason one

For a good reason

Genuinely nobody makes it here.

Reason two

Because they do not fit

Its quality, its lead time, or a different standard.

Reason three

For a sad reason

Someone makes it two hours away, and nobody knows they exist.

👉 We only know who raises their hand

To know them, they have to reach you.

And picture a factory in Al Kharj, twenty years old, that you have never heard of, and it is exactly what you were looking for.

- Even though it:
- ✓ has won past government tenders
 - ✓ has its products registered with the Ministry of Industry
 - ✓ has published conformity certificates
 - ✓ and its manufacturing origin is on record

✗ It just is not on your supplier list.

The same item, three different names

Portfolio company A · SAP MM		
Description	Lead time	Standard
<u>Ball valve 2 in</u>	30 days	ISO 9001

Portfolio company B · Oracle iProc		
Description	Lead time	Standard
<u>BALL VLV 2IN SS</u>	45 days	API 6D

Portfolio company C · Excel		
Description	Lead time	Standard
<u>Valve, ball, stainless, 2 inch</u>	6 wks	ISO 9001

The data exists, just scattered

9 sources		per factory
	Monafasat	✓
	Tarmeez · Ministry of Industry	✓
	Saudi Made	✓
	Local Content Authority	✓
	GASTAT	✓
	HRSD	✓
	Ministry of Commerce	✓
	Saudi Contractors Authority	✓
	Company site and registry	✓

So why has nobody done it yet?

Because it takes five years.

And the day you finish, what you know is out of date!

Which is why KAMIN is an investment case, not just a product.

So what is the fix?

Simple. **We hire a team.**

The Coordinator

The Detective

The Auditor

The Advisor

We do not hire them.

We run them.

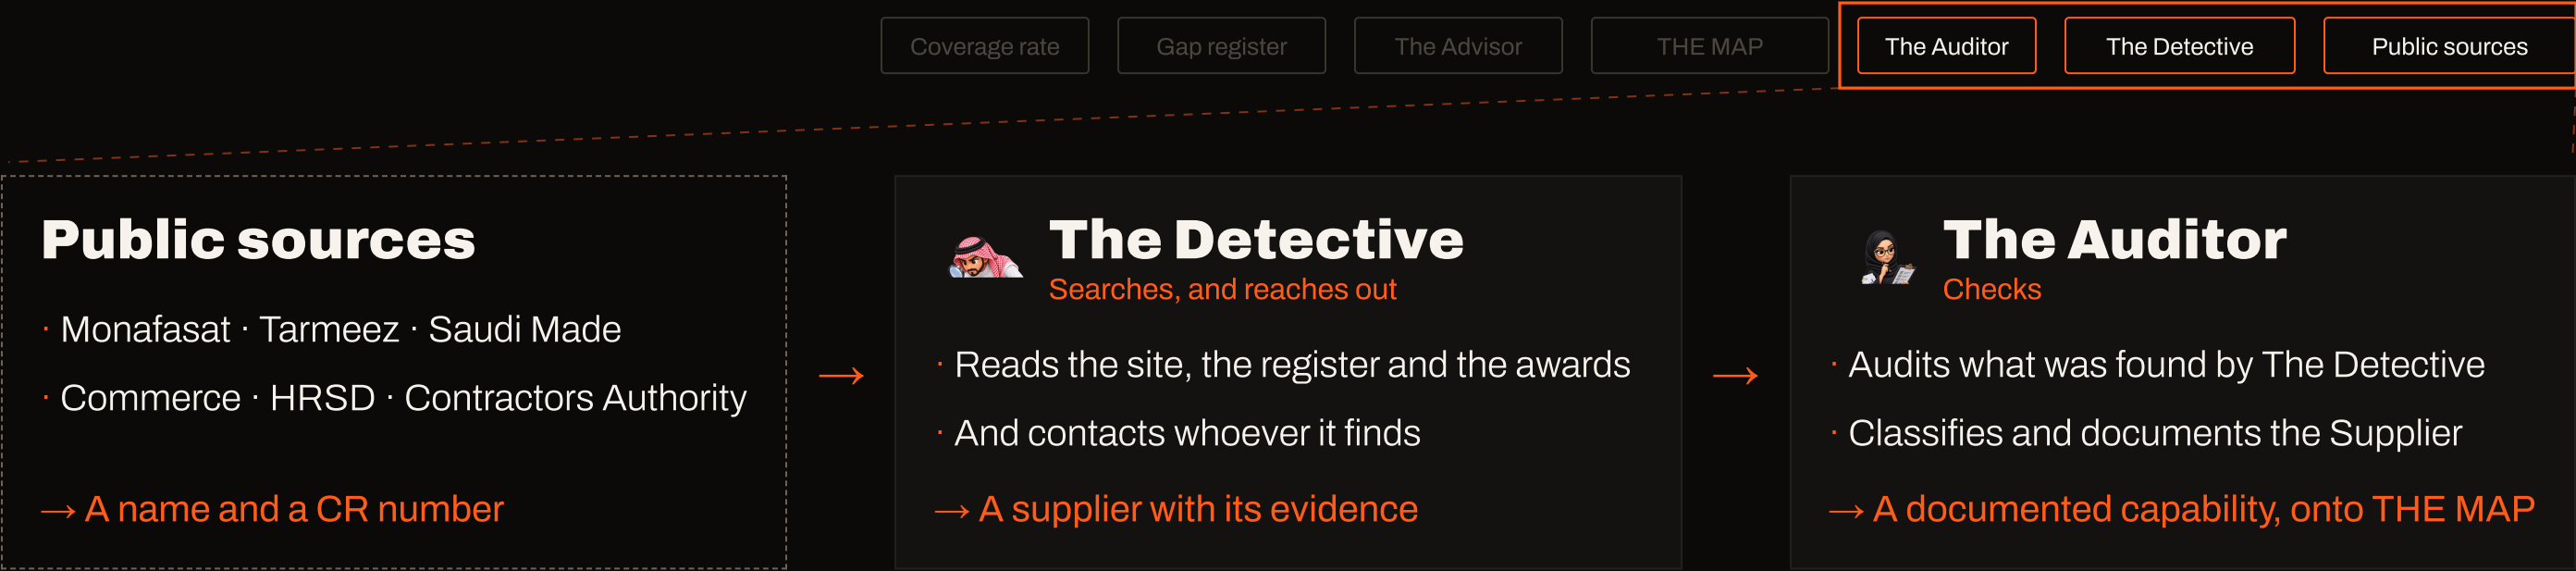

AI agents

Two minutes per factory, not a day

24 hours, no stopping

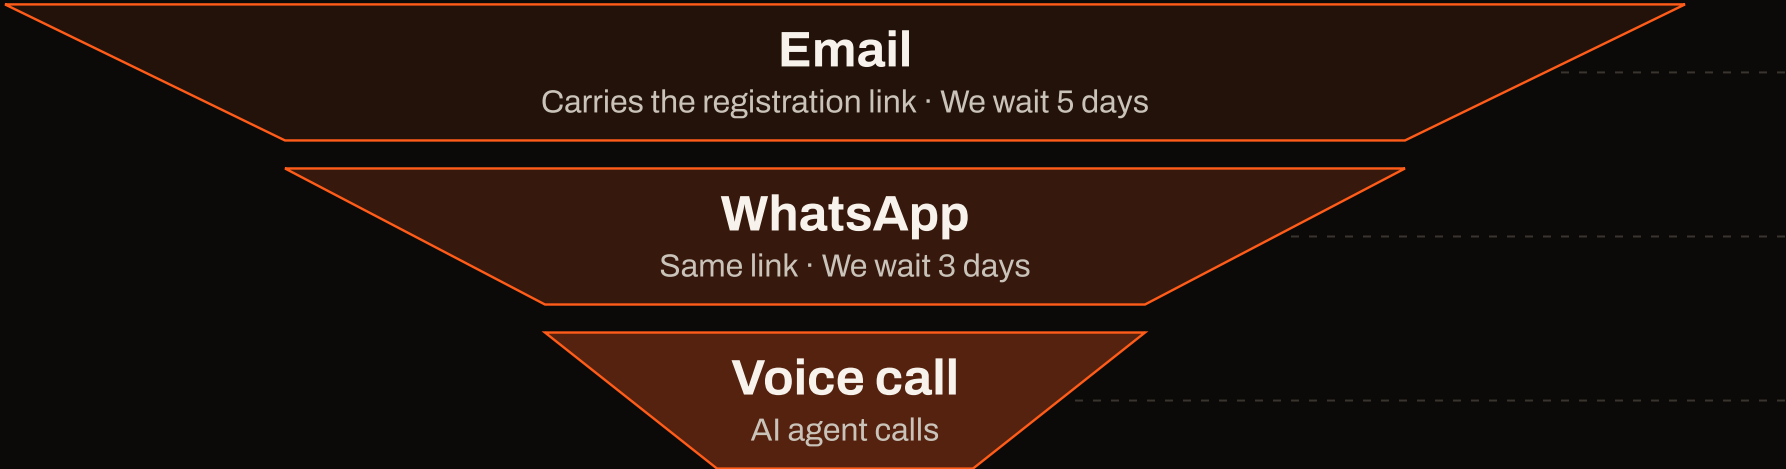

They never forget a thing

What happens before it reaches THE MAP?

Outreach by The Detective

And every message carries the registration link for MUSAHAMA.

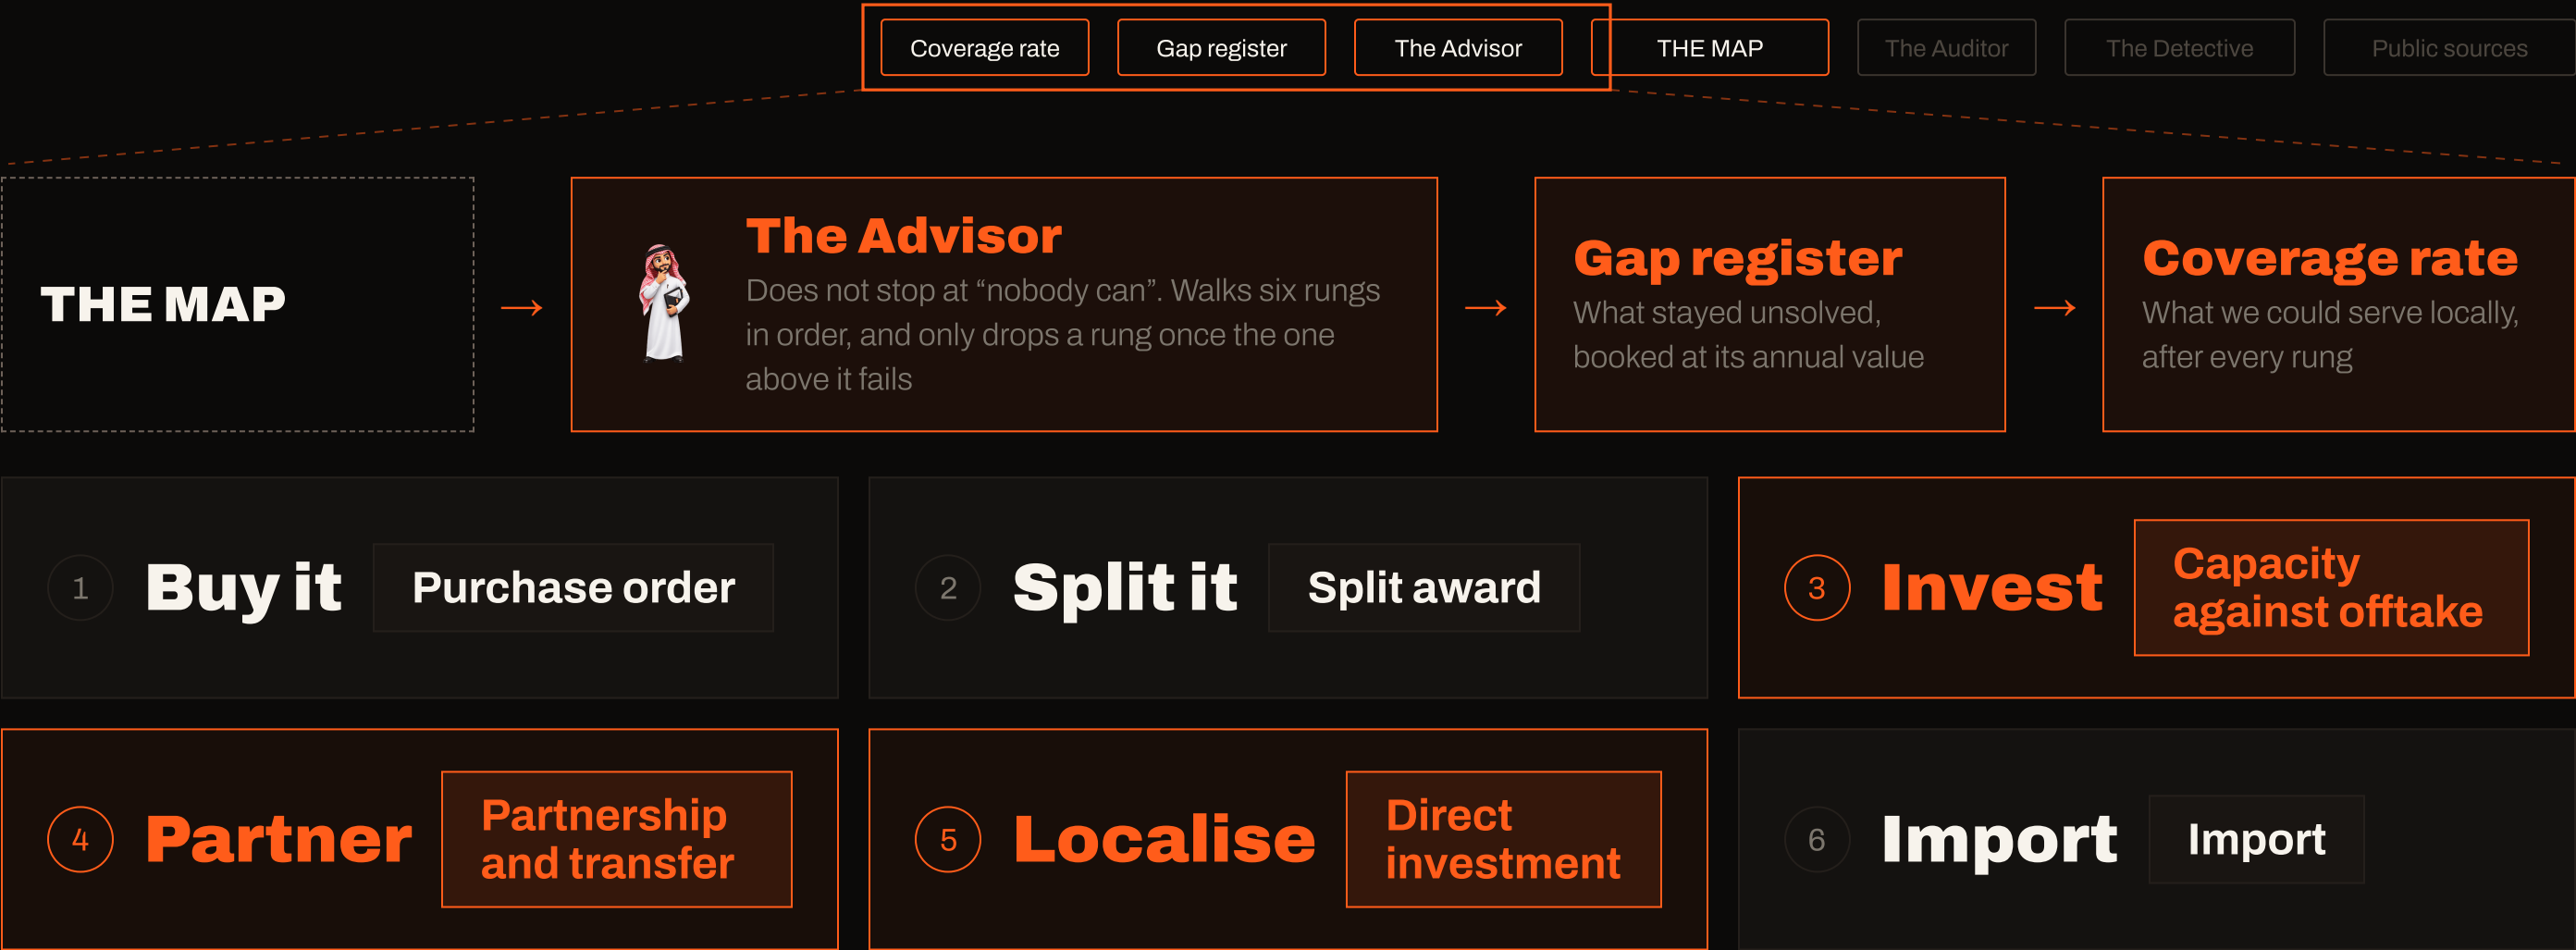

Everyone we found
~ \$0.0001

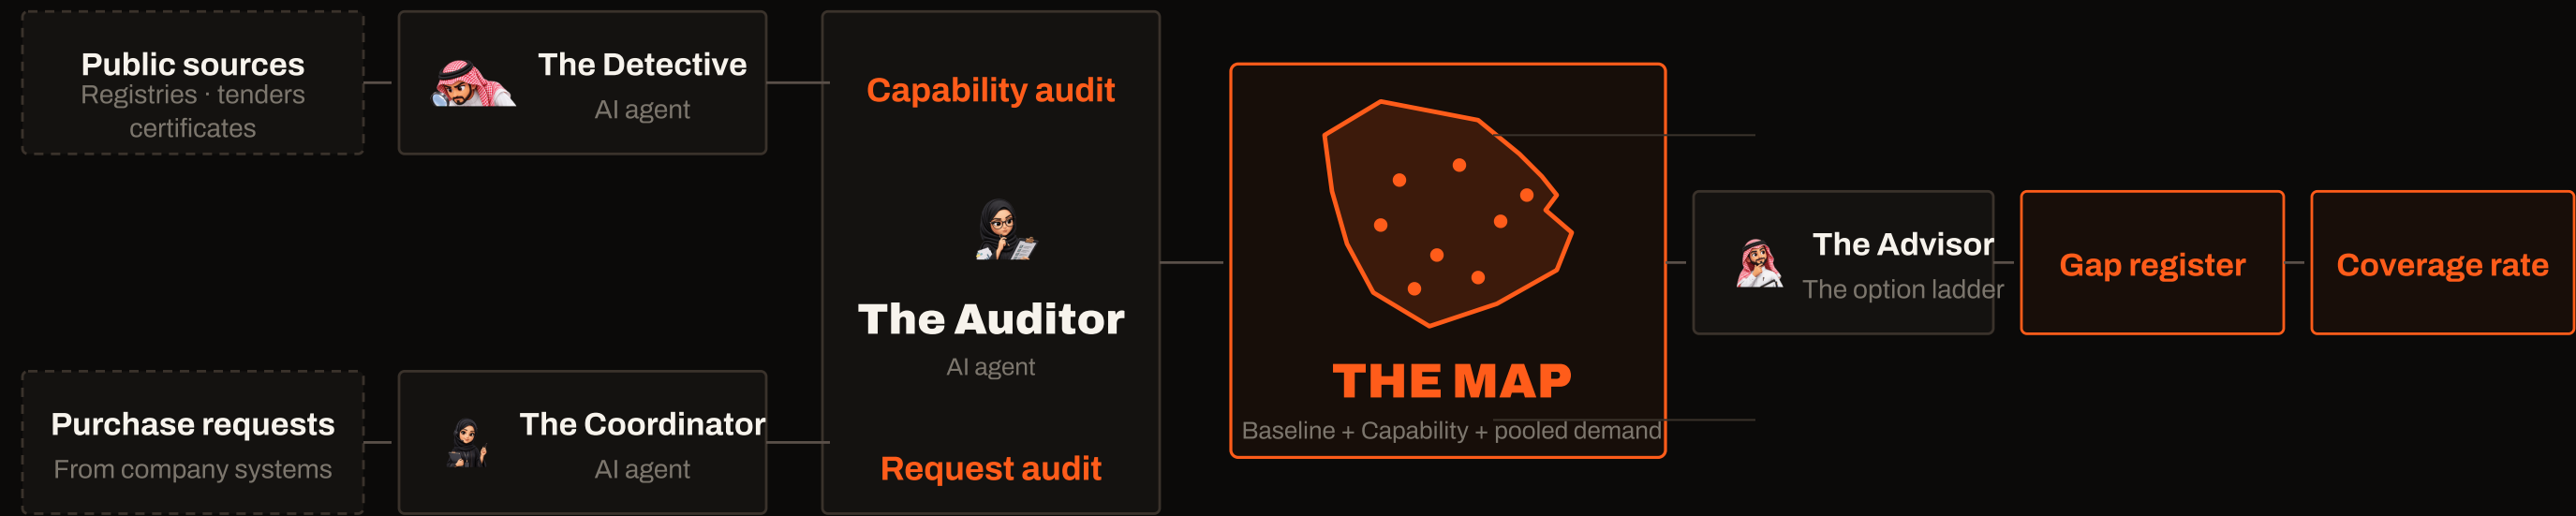

Who did not answer the email
~ \$0.04

Who did not answer WhatsApp
< \$1.00

And when **THE MAP** says nobody can?

KAMIN's map of local industrial capability

KAMIN

Suppliers

Gaps

Coverage

Q Ball valve 2 in

Pooled demand: 40,000 units a year across nine companies

4 results

Supplier	Lead time and standard	Confidence	Status
Riyadh Industrial Valves Factory Riyadh · Manufacturer · CR 1010384712 30 d ISO 9001 94 Sourced by KAMIN Verified by KAMIN			
Al Kharj Precision Machining Works Al Kharj · Manufacturer · CR 1011629044 45 d ISO 9001 71 Sourced by KAMIN Awaiting registration			
Gulf Supplies Company Dammam · Authorised distributor · CR 2050118836 21 d API 6D 88 Sourced by KAMIN Verified by KAMIN			
Qassim Alloys Factory Buraidah · Manufacturer · CR 1128470053 60 d SASO 66 Sourced by KAMIN Awaiting registration			

Sourced by KAMIN

KAMIN found and identified them from public evidence. They still need to register on MUSAHAMA.

Verified by KAMIN

KAMIN reached them, they registered on MUSAHAMA, and we audited and verified them.

	The old way	KAMIN
Time	5 years	Under 10 hours
Cost	Millions of riyals	Under \$4,000
Freshness	A report born stale	Updates itself

The same work. Just in hours, not years.

**MUSAHAMA knows who
registered.**
**KAMIN knows who never
raised a hand.**

We are not a replacement for the platform. We are the layer underneath it.

Three people. **Thousands of agents.**

The team building KAMIN.
